## JESSE J. LEE, AGED 67, VICTIM OF HIT AND RUN AUTOMOBILE DRIVER

Well Known Hancock County Resident, Meets Tragic Death—Was Resident of Flat Top Community; Survived by Wife and Six Sons.

One of Hancock County's ablest farmers and outstanding citizens residing in the rural sections met death in a tragic manner when Jesse J. Lee, sixty-seven-year-old resident of the Flat Top Community died from injuries received when an automobile evidently struck him, throwing him to the side of the road. He was later found in a dying condition and passed away that afternoon.

Mr. Lee had visited friends in the community and was returning to his home near noon when he must have been struck. He was found lying along side the road a short distance from the Catahoula School by Carson Lee and Emmet Sones of Picayune. Immediately authorities here were notified and Sheriff Horace L. Kergens and Constable Gerald Price left for the scene of the accident and began an extensive investigation. As Mr. Lee was found to be carrying a sum of money which was intact, any thought of robbery as a motive for injuring the aged man was dispensed with and a coroner's jury later returned a verdict of death from injuries received by a hit and run driver of a motor vehicle.

Mr. Lee was one of the county's outstanding citizens and had one of the finest farms and nicest homes in the county. He was the father of a large family and his tragic death was a shock to a large circle of friends and acquaintances in the county.

Services for the deceased were conducted by the Rev. Paul and interment was in the Catahoula cemetery.

Surviving him were six sons and his wife, the former Dill Lee, and three brothers, Willie Lee of New Orleans, Donald and Uman Lee of Flat Top. Also four sisters, Mrs. W. J. Mitchell of Catahoula Community, Mrs. Laura Mitchell and Mrs. Stella Beech of Salem, and Mrs. Lenora Seals of Picayune, Miss.

### PRE-MILITARY TRAINING SCHOOLS FOR LOCAL SELECTEES

### Local Hancock County Draft Board Announces Vocational Training Schools

The Vocational Division of the State Department of Education has made arrangements through which a limited number of special schools will be established to train prospective selectees in automotive mechanics and clerical work. The location of these schools will be determined by the interest shown in various sections of the State since enrollment will be altogether voluntary.

Cities under consideration are Biloxi, Gulfport, Hattiesburg, Laurel, Meridian, Jackson, Vicksburg, Greenville, Greenwood, Tupelo, and Corinth. Courses may be established in some centers on a part-time basis or at night, as such would accommodate a sufficient number of enrollees. Vocational authorities will issue certificates to enrollees satisfactorily completing prescribed courses. These certificates will accompany other papers to induction stations when selectees are called, thereby enabling induction officers to classify such selectees most advantageously.

The length of time required to complete the course offered will vary from a minimum of eight weeks to a maximum of twelve weeks.

No charges for instruction will be involved, but the interested should be prepared to take care of their living expenses. For further information, contact the local draft board.

In the program may contact George W. C. Morgan, instructor Bay High School, or contact the local draft board for further information.

After Five Years Serving King's Daughters Tenders Resignation For New Post.

Miss Thelma Lucille Ellis, well-known nurse at the King's Daughters Hospital here for the past five years has left the hospital and will be connected with St. Stanislaus College in the future.

Miss Ellis's departure from the hospital is a decided loss to it but her acceptance of the position at St. Stanislaus College was an advancement, hence the reason for her resignation.

Courteous and kindly at all times and performing her duties in a most efficient manner in a place where the entire personnel of the hospital is called upon at times to work long hours and cope with emergencies arising which demand instant and constant attention, Miss Ellis was always ready to meet the calls and her assistance to the public and the medical staff at the hospital will be missed.

Mrs. Holden, a bruised chest, and the other occupants of the car, Miss Edith May Dorsey suffered a cut on left eye and left leg. Miss Theresa Lee cut on left elbow.

## Woman's Society Of Christian Service Hear Bible Instructor.

Miss Mary Borderleden, teacher of Bible Study at the University of Oklahoma, who is presently doing mission study work at Gulfside, addressed the August meeting of the Woman's Society of Christian Service which met on Tuesday afternoon at the First Methodist Church on Main street.

Miss Borderleden's talk was extremely interesting and the society enjoyed the treat of having a speaker of note come before them. She stated in part that people very often place church and institutions above the individual and that after all, it mattered not what creed, nationality or color an individual belongs to, in the eyes of God he was a person and gave a number of interesting examples of the greatness of God in his dealings with persons. Miss Borderleden's subject was "God as a Person."

## AIRPLANE FALLS AT WAVELAND

Lone Lady Occupant Has Miraculous Escape—Plane Wrecked on Tree Top.

On last Saturday afternoon, a small privately-owned airplane met with disaster when its pilot found it necessary to make a forced landing and fell into a tree in a section of Waveland on the road just before the home of Kenneth B. Thompson.

The plane hung for a while from the limb of a tree before falling to the ground and was completely demolished, while its pilot, a Mrs. Morgan, in a cross-country flight in a rented plane, miraculously received only bruises on one side of her face. During a rain and thunder storm while travelling at a low altitude, Mrs. Morgan found it necessary to land and thus came to grief in the plane; the noise of the motor being heard very plainly by residents here in Bay St. Louis.

## A TREND IN THE WAR.

THE trend of the war in Europe may be judged by the fact that London had only one air alert in the month of July.

It was the most peaceful month the British capital has enjoyed since the Germans began bombing the great city in August, 1940.

In the month of May, June and July there were only twenty alerts and some of these were bomb free.

In the meantime, the German capital, Berlin, has probably had more alerts and received more bombs than for any similar period in the course of the war. This is indicative of what lies ahead of the Germans, who have yet to show that Berlin "can take it."

The occupation of much of the German air force in Russia gives the British a distinct edge in bombing attacks and, what is more important, offers them the opportunity of surpassing the numerical strength of the German air men.

The United States, though the production of heavy bombers, is playing a big part in bringing about this new condition, which will mark an epoch in the conflict.

## WHO WOULD 'GOUGE THE PUBLIC'?

THERE are complaints from other cities, where consumers protest that retailers and wholesalers of hosiery and other silk products, are taking advantage of the prospective shortage in these articles to "gouge the public with unjustified price increases."

We feel sure that the merchants of Bay St. Louis, who are selling hosiery and other silk products, have not taken advantage of the national policy to "gouge" their customers, although there may be extensive debate over exactly what one means by the rough word, "gouge."

Miss Harriet Elliott, appointed by the government to watch over prices in the interests of consumers, says many retailers and wholesalers have "patriotically refrained from raising the price of silk products" but "many others are taking deliberate advantage of the situation to reap windfall profits for themselves."

Consumers, we believe should follow the advice of Miss Elliott and refuse to pay higher prices for silk hose. They should, if they must have hose, buy rayons, cottons and nylons and, as a last resort, if they find all prices hovering upwards, go bare-legged.

## GOOD OLD GEORGIA.

GEORGIA will return to the traditional last-Thursday-in-November date for the observance of Thanksgiving this year, Governor Eugene Talmadge advised the Columbus Chamber of Commerce. For the past two years Georgia, under the proclamation of then Governor E. D. Rivers, adhered to President Roosevelt's Thanksgiving date—the next to the last Thursday in November.

It may not be much when compared with some of the larger oil producing fields of the world, but Tinsley field in Yazoo county, without running at capacity, is turning out an average of around 810,000 barrels of oil per month, according to State Oil and Gas Director H. M. Morse, who thinks production will be stepped up as demands increase and more wells are drilled. Right now, owners of wells in the field are generally holding down production because of inability to ship oil fast enough to Eastern Seaboard points.

Along with everything else, the sales tax token supply in Mississippi is being affected by the National Defense program. They are made of aluminum and brass and the manufacturers have notified the Chairman of the State Tax Commission that no more can be furnished until the National emergency is over. Since 1936, when the use of the token was first begun, 49,730,000 one mill pieces and 8,665,000 five mill pieces have been issued and the Tax Commission is urging all merchants to send in any surplus on hand for which they will be paid face value.

This week's issue of The Echo carries an extra page to give space to both the county and city tax sale, which, incidentally, are larger than usually and consequently occupy more space. This is due to a number of circumstances that combine to make such situation. Before the last publication, four weeks, much of the property will have been redeemed. This occurs every year.

Read a book occasionally, even if you have to borrow one.

Advertising in The Sea Coast Echo is not charity; it's a paying investment. Try it and see for yourself.

Just because they are killing men in Europe is no reason to forget to save them on our highways.

What Bay St. Louis needs is more thorough development of its young people—and we don't care how it comes about.

The war certainly will reach the average American if he is prevented from having on the "dollar-down, dollar-a-week" basis.

Let us bear in mind the prediction that when nations spend in production for war that most have the necessity of keeping it moving in the high-stakes gambling game of war.

## FRENCHMEN DISHONOR FRANCE.

THE decision of Marshal Petain and other French officials to completely align France with Hitler's Germany looms as no great surprise, in the light of recent conduct on the part of French officials.

It is almost impossible for any one, familiar with European history since the formation of the Triple Alliance by Germany, Italy and Austria in 1882, to imagine France as the ally of Germany in a bitter struggle against Great Britain.

Regardless of the difficulty of understanding French logic or cowardice, the fact is impressive in its probable consequences. Admiral Darlan, already placed in control of the army, navy and air force of France, will not hesitate to use the full strength of France in the service of Adolph Hitler.

Thus, the French, sworn allies of the British not only surrender in battle but, during the course of the struggle, change sides and prepare to attack the nation that has twice sent her soldiers across the channel to aid France when at grips with her deadly, but now embraced enemy, Germany.

The effect of French participation in the war on the side of Germany, which seems to be a matter of time only, cannot be accurately gauged at this moment but it will do much to offset the difficulties that face Hitler in his march against Russia.

Hitler can again forget the two-front war. His new French allies will stand guard in the west, to protect the Nazis in their dirty work in Europe, upon the promise that Germany will permit France to live, even if Frenchmen, on their own, have decreed that their nation shall be without honor.

There can hardly be a Frenchman, in official position in Vichy, who believes that the promise of Hitler's government, in regard to the future of France, is worth a French franc, even as devalued by the Nazi invaders. The willingness of these French officials to accept the word of Hitler is abundant evidence of the paucity of leadership in France and does much to explain the importance of the French nation in battle.

The accession of France to the side of Adolph Hitler represents a considerable gain for Germany. Whether the action of the Vichy government will become the permanent policy of the French people, remains to be seen but until there is indication to the contrary we must assume that the resources, in men and material, of France are employed for whatever purpose suits Adolph Hitler.

## SENATORIAL CAMPAIGN QUIET.

ONE of the Jackson daily newspapers editorially remarks the press of the State is paying little or no attention to the forthcoming special senatorial election, to fill the vacancy caused by the demise of Senator Harrison.

In fact, newspapers seem to take no interest in the campaign, which seems like a dead calm sometime we see on the local bay waters. A dead calm in truest sense.

The same newspaper infers candidates in the past have been inclined to ride the press for all free advertising possible; that this is done principally with State and District candidates, and that while newspapers have nothing else to sell but space, that this practice cannot be countenanced in future.

The schemes resorted to by certain candidates to get free publicity with county newspapers is unbelievable. One of the schemes is to send a bunch of readers to a friend close to the publisher with the request same be published. The friend then in turn says to the publisher charge it to me, well knowing because of certain conditions and circumstances the publisher would not send a bill to the local man because of obligations or because of a deep and kindly friendship.

Candidates, and they are numerous, who do this, put their local friends on the spot and the situation is, to say the least, embarrassing. Candidates for high office should refrain from this practice. It is injurious. We are glad to note the press of the State has resolved to quit tearing its shirt and contributing space, advertising, and editorial for candidates, who, after the election, as a rule, do not care a hoot for the editor. And let his friend hold the bag.

Local candidates, have a full sense of responsibility and appreciation; it appears, and the press is always glad to serve them and even go better than half way.

The senatorial campaign is dull, seems to be void of interest. And the press is not going to whoop it up.

## JAPAN'S COURSE IN THE FAR EAST.

THERE is the possibility that Japan may attack Siberia, in an effort to take advantage of Russians now engaged in war with Germany.

This would be in keeping with Axis honor. Japan signed a non-aggression treaty with Russia only a few months ago, but if Russia is fighting Germany then Japan has a chance to cut down her friend. What is already to stand in the way of booty?

There is some concern in this country that Japan may strike southward, forcing an issue which the United States cannot avoid without war. There is some hope that Tokyo will direct its attention toward Siberia, rather than the Netherlands East Indies, with the idea that such a move would mean peace for the United States.

No peace is possible, upon a permanent basis in the Far East, until Japan is defeated in her efforts to take the territory of all other nations. A move toward Siberia, if successful, would aggravate the risk of warfare in the southern Pacific. Japan may move northward but this will only postpone the crisis in the south.

If Japan attacks Siberia, there is every reason why the United States should give aid to the Russians. Just like we give aid to the British and the Chinese in fighting Germany and Japan, the Russians are our allies, and we should give them the same aid. It is a cheap way to have your battles fought.

## BEACH BEAUTIFICATION.

Board of Supervisors of Harrison county has contracted with a beach beautification expert for landscaping and general "finishing" of the double boulevard in course of construction at certain parts and finished over the greater portion of the Harrison county coast line.

This coast line boulevard is perhaps the greatest in the country. It is outstanding. It is one of the greater attractions to the Mississippi Gulf Coast and instantly wins the admiration of all visitors, thanks to the far vision of former Governor Hugh White.

But there is a certain barren aspect to the entire get-up, costing money in almost untold amounts that gives the project a something definitely lacking.

That is the finishing touch of beautification. And it is noted with interest the Board of Supervisors of Harrison county has contracted with a specialist who will beautify the long stretch of double roadway.

Beautification is a great advertisement to any community. An asset of incalculable value. And The Echo is glad to note Hancock county, thanks to a beach way abutting the Bay-Weyland seawall, to finally extend to a minimum distance of 150 feet from shore, has such work in progress. This makes for beautification.

Now it behooves owners of property abutting this beach highway to show an appreciation by aiding to beautify and to keep all premises

## SALES TAX TOKENS ARE RUNNING SHORT.

State Tax Commission Unable to Replenish Supply Day to Day.

The State Tax Commission is in need of sales tax tokens, and has issued the following appeal to the merchants of Mississippi.

"Will you please help us to help you?"

"We find ourselves unable to purchase new sales tax tokens like the ones now in circulation. The national defense program calls for all aluminum and brass. If you have more sales tax tokens than you now need, will you please bring them to the office of the State Tax Commission, or notify us, and we will be glad to call on you and buy them at face value."

There have been 49,750,000 one-mill aluminum tokens in circulation and 8,665,000 five-mill tokens, or a total of 58,415,000 tokens in circulation since July, 1936.

spick and span. Trucks and bus and all other vehicles are kept off the beach way because of their unsightly appearance when in exclusive areas and for the hazard they cause to public life.

**Never Before PERFORMANCE like this in 1 1/2 Ton TRUCKS**

GMC offers the strongest engine available in any 1 1/2-ton truck. Its displacement is only 236 cu. in. But it packs 97 horsepower at 4000 r.p.m., and delivers 192.5 ft. lbs. torque at 1000 r.p.m.

Like the regular 228 in. engine in 1 1/2-ton GMCs, this new Super-Duty power plant gives you every gas-saving advantage of GMC Turbo-Top Pistons.

# 'ONE NIGHT IN LISBON' COMES TO A. & G. THEATER

Fred MacMurray and Madeline Carroll Co-Star in Great Picture—Sunday And Monday.

While it may be difficult to accept the premise that World War II has its higher side, nonetheless it supplies the London background against which is unfolded this delightful romantic comedy which packs sure-fire general audience appeal in every line of its brilliant dialogue and in every one of its countless laugh-inspiring situations, as to its merits than to remind that it results from the efforts of the same high-score producer-director-writer-theater combination that gave them "Honey-moon."

in Bali" and "Virginia." Virginia Van Upp's script is vital and vivacious; Fred MacMurray and Madeline Carroll, who head a sparkling cast, were never better; Edward H. Griffith, receiving credit for both production and direction, organized and piloted with characteristic command of his subject matter.

MacMurray, an impetuous Texan, dies American bomber to Britain, where he falls in love with a high-bred English girl. Their whirlwind romance and courtship in the face of war conditions furnishes the plot. Cast: Fred MacMurray, Madeline Carroll, Patricia Morrison, Billie Burke, John Loder, Edmund Cwenne, Billy Gilbert.

This feature picture will be presented at the A. & G. Theater Sunday and Monday of this week.

Damon Runyon will join RKO the first of September as a producer-writer.

## W. H. McDANIEL

Death of W. H. McDaniel, 63, removes from our midst another well-known citizen who came to Bay St. Louis many years ago, with his aged mother and two small children. For many years a conductor on the Illinois Central Railroad, running out of New Orleans, he met with an accident from which for a long time thereafter it was thought he would not recover. He was brought to Bay St. Louis on a stretcher in a precarious condition, with a view the change to the Gulf Coast, would contribute to his ultimate recovery, which it did. Unable to work for a long while, he finally recovered and in later years was able to do light work, his advancing years notwithstanding.

It was said in public by a group of citizens that Mr. McDaniel was not known to have spoken an ill word of anyone. And this was true.

Honest, his integrity never questioned, he was frequently selected to hold positions of honor and trust. He was always appointed to serve on days of election and was custodian at various times for the city and county, respectively. He was truthful, honest and dependable. He was never found wanting. His devotion to his family was another of the many fine traits of character for which he was known and will always be remembered.

They expect to be gone about 10 days. Mrs. Condon is a daughter of Mayor and Mrs. Thomas J. Bourgeois, of Waveland.

## DEATH OF ELISE SAUCIER REED

Elise Saucier Reed, wife of James Reed, resident of Bay St. Louis, died at her home Sunday evening at 8:30, giving her life that another may live. She was a native of this city, aged 31 years, and the mother of seven children. Funeral ceremony took place Tuesday afternoon from the church of St. Rose de Lima, with interment in St. Mary's Catholic cemetery. The Rev. Father Holken, pastor, officiated.

The deceased was a daughter of Julian and Sidonia Saucier.

If Jimmy Cagney and Rosalind Russell are teamed to appear in "Captain Hornblower," the photographers will have to employ all of their special-effects wizardry. Cagney is one of the shortest actors in Hollywood, while Miss Russell is one of the tallest of the actresses.

## SPECIAL NOTICE TO LONG DISTANCE TELEPHONE USERS

Never before in history have our long distance switchboards been so busy. Long distance calls this year have already far exceeded 1940's record-breaking average, and the volume grows greater every day.

Industries with vital defense orders and booming Army and Navy posts are relying heavily on long distance service. In addition, calls from the general public have increased by leaps and bounds.

Despite our "all-out" effort to meet these rapidly expanding demands, our facilities are at times operated at near capacity. Occasional delays may be expected on some long distance calls. "Hold-the-line, please" service is not always possible.

To relieve the situation we are engaged in an expansion program costing millions of dollars. Many thousands of miles of new long distance circuits have been placed in operation this year, and more are on the way. Additions to many switchboards have been installed. Others are being set up as fast as they can be secured and our men can place them in operation.

But manufacture and installation of telephone equipment takes time, and defense priorities are making it increasingly difficult to secure essential materials. Long distance telephone users can do their part in this present emergency by avoiding as much as possible placing calls during the peak long distance hours of 7 to 11 a.m. and 7 to 8:30 p.m.

The understanding and cooperation of those who serve will be most helpful and will be greatly appreciated.
